

# Potential Projects: Trails with a Focus on Safe Routes to Schools

The potential project map includes example projects listed in Council Resolution 2018-21 and projects outlined in the Transportation Element of the Comprehensive Plan.

If the SAFE Mobility Levy passes in November, the City Council will appoint a SAFE Mobility Project Selection Committee, which will represent multiple Island demographics and interests, to develop and provide a recommendation to Council. The Committee will work with the Multimodal Transportation Advisory Committee (MTAC), city staff and the public to determine which projects to build using ballot proposition funding.
